

# Summer Analytics 2022

A PRIMER COURSE ON DATA SCIENCE

1. You're allowed to select only one out of the two problem statements.
2. Attempting this second hackathon is compulsory for the pre-internship opportunity.
3. **For PS1 dataset 1 is compulsory and Dataset 2 is optional, however for PS2 both are compulsory.**
4. For PS1, the submission will be in the form of a .ipynb notebook, whereas for PS2, you will submit a maximum of five .csv predictions.
5. Please adhere to the honor code.

All the best!
